## SUMMARY

Motivated Front-End Developer with 1 year of experience building clean, responsive, and user-friendly web applications using React and Next.js. Experienced in creating performant, reusable UI components and translating designs into high-quality interfaces. I'm eager to gain knowledge from seasoned engineers, adhere to best practices, and keep developing my front-end expertise while moving closer to full-stack development.

## WORK EXPERIENCE

**Jr. Frontend Developer** - Byte Care Ltd | 2024 - 2025

- Designed and developed clean, responsive web interfaces across diverse client projects, enhancing user experience and usability.
- Delivered 10+ freelance projects on Upwork and Fiverr, managing client communication and collaborating with team members to troubleshoot issues, workflows, and front-end optimization.

## SKILLS

- Programming:** JavaScript, TypeScript, React JS, Next JS, Tanstack-Query, React-Redux
- Tools & Platforms:** Git, GitHub, Figma, Postman, Tailwind, Bootstrap, Slack, Discord

## FEATURED PROJECTS

### Luxury Chauffeur Car Booking

[Live](#) | [Source Code](#)

**Tech:** Next JS | Framer-Motion | REST API | ShadeCn

- Built a Luxury Chauffeur Car booking website with a modern, responsive UI, including service pages, vehicle selection, and a multi-step booking form for a smooth user experience.
- Faced key front-end challenges such as Google Places Autocomplete integration with multi-step form, and performance optimization to ensure a seamless booking flow across devices.

### Touch - Bus Ticket Booking Website

[Live](#) | [Source Code](#)

**Tech:** Next JS | TypeScript | API Integration | Redux

- Developed a bus ticket booking website with a clean, responsive UI using Next.js, featuring route selection, seat layout screens, and booking flow interfaces.
- Addressed key UI challenges such as complex state handling, dynamic seat layout logic, reusable component architecture, and ensuring a smooth, consistent user experience across devices.

## EDUCATION

**Bsc In Mathematics** - Dhaka College | 2022-2026

Relevant Coursework - Probability, Linear Algebra, Numerical Methods, Optimization, and Real Analysis.

Application - Translated mathematical foundations into algorithmic logic and performant front-end architecture.

## CERTIFICATION

**Reactive Accelerator (Frontend Engineering)** - Learn with Sumit - LWS

**Topics covered:** Advanced JS, Client Component, Server Component, SSR, SSG, ISR, CSR, Caching & Revalidation, TypeScript, Next-Auth, Socket.io, Docker + AWS, Testing, TanStack Query, GraphQL.
